PROFESSIONAL EXPERIENCE

- Built Karmik Pro for an organization using AI-assisted development workflows; the project generated revenue for the college and was later developed into my B.Tech major project.
- Organized workshops (Code to Cloud AI Edition with GDG Hyderabad) and hackathons; served as Executive Team member in college tech clubs to foster full-stack and AI skills.
- Deployed projects for clients and fellow students, with solutions implemented in practical and industry-oriented use cases.
- Founder & Team Lead, Code Resol (Tech Community)

KEY PROJECTS

VIRAT ERP | *React, TypeScript, Supabase, PostgreSQL, Tailwind CSS*

- Built a full-stack inventory and billing ERP with relational product, category, bill and bill-item workflows.
- Implemented stock validation, low-stock/expiry monitoring, customer and payment capture, searchable bill history and printable invoices.
- Added Supabase real-time synchronization and dashboard metrics for revenue, sales, products and unique customers.

Karmik Pro | *React, TypeScript, Supabase, Leaflet, React Query*

- Built a role-based hyperlocal gig marketplace for workers and employers and developed it into a B.Tech major project.
- Implemented location-aware job discovery with browser geolocation, Leaflet maps, distance filtering, applications, assignments, ratings and earnings.
- Developed Supabase Realtime chat and a rule-based recommendation engine using skill match, distance, pay, urgency and recency signals.

ResolGate | *AI-assisted EdTech Repository*

- Built an academic-resource management platform with AI-assisted moderation and repository workflows

AlgoMind | *AI DSA Platform*

- Built an AI-assisted DSA learning platform with 120+ problems, problem-solving workflows and code-review capabilities.

HyperWeb AI | *AI Web Generator*

- Built a prompt-driven web generator that converts natural-language requirements into HTML/CSS/JS with live preview.
